NIIT

Jun 2011 - Nov 2011

Senior Software Engineer

Responsible for:

1. Writing Backing Beans, Domain Classes, Service Classes.
2. Designed JSFs as per the requirements.
3. Integrated JSF, Spring, Hibernate, Primefaces, Webservices
4. Used Design Pattern like Strategy ,Facade ,MVC, Proxy etc.
5. R&D on VMware fusion on MAC OSX, VMware Workstation,Virtual Box on windows.

Project Name : LITE (Virtualization :: VNC)

LITE is a web based testing tool, to test web applications / web sites, to check compatibility across different browsers, on different versions and across different operating systems.

Senior Software Engineer

Responsible for:

1. Writing Backing Beans Classes, Navigation Rules.
2. Designed JSFs as per the requirements.
3. Responsible for writing Domain Classes, Service Classes.
4. Writing HQL, Hibernate and Spring classes.
5. Do R&D on Memory Management, Spring Security, JMS

Project Name : nameMediSwiz (HMS)

MediSwiz HMS is a comprehensive and integrated Hospital Management System developed to cater to the needs of poly clinics to multi-specialty Hospitals.

Software Engineer

Responsible for:

1. Writing Backing Beans Classes, Navigation Rules.
2. Designed JSFs as per the requirements.
3. Responsible for writing Domain Classes, Service Classes.
4. Writing HQL, Hibernate and Spring classes.
5. Involve in Database as a backend and writing scripts.

Project Name : Hinai Web (HMS)

Hinai is a HIS solution, providing web based healthcare services and solution. This Hospital Information Systems application is completely deployed on cloud. ICTHEALTH has tied up with Many renowned hospitals to launch a hospital information system that will store patient records and other hospital data on cloud infrastructure.
